## Chips

One William Wilbur, listed on the police blotter as having "no occupation" but nevertheless well known about the G. W. campus, seems to have been late getting to class about a week ago, or maybe he was late getting home after class. At any rate the hands of the law reached out and delayed him even more at some place around Wisconsin Avenue and R Street.

The other day we got a note asking us to find out why flower beds were being put in front of Lisner Hall to replace the sturdy concrete lawn. Agent No. 4, assigned to the job, reports that a certain sum of money was given to the University provided some flowers were planted. While this information is obtained from sources that we consider reliable, we cannot guarantee it.

Dr. Ragatz' European History Class was rudely interrupted the other day by a small kitten that announced its arrival with a first-class "meow." This kitten strutted proudly across the middle aisle between the desks in the class. Dr. Ragatz smiled complacently and picked up the kitten, then had it safely conducted to the nearest exit.

We wonder if this was one of the series of cats recently received by the zoology laboratories?

Last week in a slightly inebriated condition an old colored woman came staggering down G Street. Wanting a taxi, she was shown a yellow Ford nearby by some seemingly well-meaning students. And the owner returning some minutes later was much abashed to discover his unwanted passenger.

Some facetious editor saw a rather lengthy list of the activities of Herbert E. Angel, ex-editor of the Hatchet, etc., etc., and put in the subhead "A very active Angel." Well, well, but perhaps the editor was right.

Don Slicker, 13; Herbert Angel, 10; and Dorothy Ruth, 3. Such were the results of the elections in the Senior Class held May 15. We are now more than ever glad that we supported the Student Council. Said Council may not know what it is going to do, but it did arouse the interest of the student body when it was elected.

We've been wondering just what the Student Council is going to do now that it has got itself elected. After interviewing a few of the members we find some who will not admit knowing what it is all about; others who are waiting for someone to start things.

It seems that the Student Life Committee of the University will have to bring the Council together. Then perhaps the faculty will give it something to do. We, personally, like the second member interviewed, are waiting anxiously for someone to start something.

Are any bets being made on the Faculty-Pyramid baseball game on June 7? We'll offer two-to-one odds that it is a farce, as usual, but at that it will be just as interesting.

One of the good Phi Sigma Kappa athletes went to Central High last Saturday, walked into the locker rooms, changed clothes, went out onto the field and discovered the Interfraternity Track Meet in which he was listed wasn't at Central at all. It was held at Eastern—which is in quite another section of the city.

We hear the ADP rat also shared by the sororities having headquarters in nearby rooms and immortalized by comment in these columns a short while ago, is still very much mortal. Even hosts of rat traps and semi-professional rat catchers of the University have not been able to write him to his record yet.

But, Mr. Rat, with the sororities after you, we certainly pity you.

One of our well-meaning friends showed us the other day a list of 50 names— from Nordic to immigrant and from pacifist to West Point. We were to put an x by the ones that aroused antipathy thereby showing our friend our pet prejudices.

We wish to modify it to show preferences and dislikes around the school. Here goes, Mark L. by the ones you like and D by these you dislike:

1. Co-eds.
2. Fords.
3. Cadillacs.
4. Frat dances.
5. The Hatchet.
6. Chips.
7. Left (school politics).
8. Double parking.
9. Rumb's seats.
10. Quigley's.

If you will mark this, cut it out, and send it to Dick Rollo, 715 Twenty-first Street, we shall tell you what we think of you.

DICK ROLLO.

## EIGHT INITIATED IN THE PYRAMID; ELECTIONS HELD

Angel, Barr, Dorsey, Gray, Jemison, Kilstein, Roth, and Thacker Initiated

ALL INITIATES LEADERS IN STUDENT ACTIVITIES

Leighey, Angel, Gray, Dorsey Have Been Elected Officers for Half Year

Eight men were initiated into Pyramid, the senior honor society, following a banquet last Monday evening in the Silver Room of the National Press Club, and in the meeting which followed, officers were chosen for the coming semester.

The men initiated were Herbert E. Angel, William C. Barr, Jr., Harryman Dorsey, Robert M. Gray, William Jemison, Richard I. Kilstein, George Roth, and John W. Thacker.

Those who will hold office until the close of the first semester of next year include Robert Leighey, president; Herbert E. Angel, vice president; Robert M. Gray, secretary-treasurer; and Harryman Dorsey, historian. The retiring president is R. Campbell Starr.

Pyramid Honor Society was founded at the University in 1909, and chooses its members from seniors who are leaders in their respective activities, and who, at the same time, have maintained a scholastic average of at least 82.5. Four men may be elected in the fall, and ten in the spring.

The activities of the newly initiated members are as follows:

**Angel Is Prominent**

Herbert E. Angel, has served for four years on the staff of The Hatchet, as junior and senior reporter in his freshman years, as copy editor, and member of the Board of Editors in 1927-28, and as Chairman of the Board of Editors during his junior and senior years. With the merging of The Hatchet, The Colonial Wig, the Ghost, and The Handbook, he became Managing Editor of the combined publications. Angel was features editor of the 1928 Cherry Tree, and was a member of the Publications Council for two years. He was president of the Intercollegiate Newspaper Association of the Middle Atlantic States, and president of the District of Columbia Collegiate Press Conference for the year 1929-30. He has been a member of the committee on Student Life for the last two years, and has recently been appointed a member of the Committee on Publications. Angel is a member of Sigma Alpha Epsilon, Pi Delta Epsilon, honorary journalistic fraternity, of which he was president this year; Omicron Delta Kappa, honorary activities fraternity, and is one of the group petitioning Pi Gamma Mu, honorary social sciences fraternity.

**Barr, Dorsey, Gray, Jemison**

Barr was a member of the men's championship rifle team, and is a member of Phi Sigma Kappa, and Nu Sigma Nu, medical fraternities.

Among the activities of Dorsey may be counted his participation in intercollegiate oratorical contests as representative of the University. Dorsey has been a student assistant in public speaking and political science, and is assistant law librarian. He is a member of Delta Sigma Rho, honorary forensic fraternity, Phi Delta Phi, legal fraternity, and the American Society of International Law.

Gray has played varsity basketball for three years, and was captain this year. He was also a member of the 1930 Cherry Tree Board, and a junior manager of athletics. He is a member of the Interfraternity Council, a member of Phi Sigma Kappa, Omicron Delta Kappa, Pi Delta Epsilon, and Gate and Key, honorary interfraternity society.

Jemison has been connected with the Troubadours in varying capacities during the last three years, and this year was especially prominent in writing some of the music. He is a member of Sigma Chi and of Gate and Key.

**Kilstein, Roth, Thacker**

Four years on the Glee Club, the last as publicity manager, a year with the Troubadours, a year as intramural baseball manager, and membership on the University committee for reception of the championship men's Glee Club are numbered among the activities of Kilstein.

Roth was connected with The Colonial Wig for three years before that publication merged with The Hatchet, and at that time he became a member of The Hatchet Board. He will edit the literary supplement which is to appear in The Hatchet of May 28. Roth

(Continued on page 3)

## AL SMITH URGES POLITICS

In an article in the Yale Daily News, Alfred E. Smith, democratic candidate for president at the last election, advocates politics as a career for university graduates. The former New York governor declared that the college man today prides himself on not knowing anything about politics, while he should be ashamed of himself for such ignorance.

## SUMMER STUDENTS MAY REGISTER NOW

Professor Bolwell Announces Pre-Registration Period to Avoid Heat and Crowds

For the convenience of regular students of the University and others in Washington who expect to attend The George Washington University Summer Sessions, a pre-registration period is being held from May 15 to 18, in all schools of the University excepting the Law School, it is announced by Dr. Robert Whitney Bolwell, Director of the Summer Sessions.

New students will be required to present the usual credentials when registering during the pre-registration period, and if transferring from another school, a certificate of good academic standing.

Dr. Bolwell urges students who contemplate summer courses to take advantage of this period, pointing out that heat and crowds will be avoided by early registration.

Three changes in the summer faculty have been announced.

Professor Cortland Dawke Baker will teach the courses in Renaissance and Elizabethan Literature; Elizabethan Drama and Nineteenth Century Drama, which were to have been given by Professor Potter of the University of North Carolina.

Professor Joseph K. Folsom, of Sweet Briar College, will teach summer courses in Sociology in place of Professor Willard, who will spend the summer in research.

Professor Raymond John Seeger, has been appointed Assistant Professor of Physics in place of Professor Arthur J. M. Johnson, resigned.

## Hatchet Supplements To Appear Next Week

Rotogravure and Contributions From Wig and Ghost Make Largest Hatchet

The most extensive "Hatchet" ever published by The George Washington University, which will include 24 pages and will be sent to alumni all over the United States, is due to appear exactly one week from today.

Besides the regular four pages of current news, there will be inserted an eight-page rotogravure section similar to that of last year; an eight-page literary supplement contributed by the staff of the former Colonial Wig, and four pages of general alumni news, sport reviews, and feature stories.

The rotogravure section will include representative campus scenes, pictures of the faculty and prominent students active in University affairs.

The eight pages, which will be made up by the former staff of the Wig, now combined with The Hatchet, will include five short stories, poetry, and art, theater, and book reviews, and a feature article on "Evening School." It closely resembles the weekly magazine section of Sunday newspapers.

## Practice For Faculty-Pyramid Game Causes Removal Of Glider From Campus

Cruckshanks, Mason, Bolwell, Bement, Croissant and Others of Note Leave Scholastic Duties to Participate

Tommy Littlepage's glider was not removed from the back campus because photographers insisted on taking photographs of Congressmen's daughters in it, nor yet because the University is not air-minded, but simply because the faculty needed the space to practice for the annual faculty-Pyramid Honor Society baseball game, which is scheduled for June 7.

These yearly contests have somewhat of a legend connected with them, as might be expected when staid professors encounter seniors who have led in activities and have somehow managed to acquire high grades at the same time. It would be trite to call these pseudo-ball games comedies of errors, but it is asserted that the onlookers enjoy them far more than the players.

Back in 1927, the Pyramiders triumphed 24 to 9, collecting half of their runs in the first two innings of the then President William Mather Lewis. Relief Pitchers Tillema and Roe yielded a dozen more runs in the remaining five innings of the struggle, and seemed glad enough when the umpire called the game.

## JACKSON NAMED COLONIAL BELLE

Winifrede Beall and Barbara Miller Are Runners-Up In Mystery Contest

DEDICATED TO PROVOST

Miniature Ghost and Wig to Appear In Year Book; Other Clever Features

With the appearance of the 1930 Cherry Tree on the campus the first part of this week, it was made known that Carolyn Jackson had won the title of Miss Colonial Belle. The features section, one of the best in the history of the year book, is dedicated to her, with the opening pages devoted to Miss Jackson and her two attendants. These girls are Winifrede Beall and Barbara Miller, runners-up in the contest.

The 1930 Cherry Tree is dedicated to Provost William Allen Wilbur, and on the two pages given to this in the opening section of the book appears a drawing of the University as it is planned for the future. This plan includes a great number of buildings covering some six blocks square of this part of the city.

More than two hundred and thirty seniors appear in the Classes section, of which Barnard Conger was editor. Most of the organizations on the campus, fraternities, and societies took space in this year's book, making it truly a representative book.

The theme of the book has been favorably commented on by every one. A colonial idea has been carried out connecting the life of yesterday with that of today. Pictures of the campus, of buildings, and of the interiors of the University are used for the division pages.

The sports section contains a review of the seasons for both men and women. Pictures of teams, coaches, managers, and captains appear with each sport. The individual pictures of the football team and of the basketball players are especially well placed this year.

**Ghost and Wig Reborn**

In the features section the Ghost and the Wig live again. Miniatures of these publications which merged this year with the University Hatchet appear in the book. A sixteen-page Ghost appears, and resembles the magazine from cover to cover. A clever cartoon, drawn by Betty Buntin, is used on the cover, and a Coca Cola ad is found on the back. On the inside pages are many cartoons, jokes, and witticisms in true Ghost style. The Wig has a four-page section, with a cover, poetry, and an "A Propos" to make up its contents.

The results of a questionnaire sent to the sororities and fraternities to select the most popular, most attractive, and most active members appear in the Cherry Tree. Each group was voted on by every other group, and the results are amazing.

The Cherry Tree is on sale in the Bureau's office and in the Medical School, at the price of four dollars per copy. Students who have paid dollar deposits should present their stubs to receive their books on complete payment.

## DRAMA CLUB CLOSING YEAR

The Dramatic Club will hold its last meeting of the school year tonight at 8:00 o'clock, in Corcoran Hall, Room 1. At this meeting a program of two or three one-act plays will be presented. Any students interested are cordially invited to attend.

## GAS LIGHT COMPANY OFFERS SCHOLARSHIP

Four-Year Course at Johns Hopkins Given By Appointment

The Washington Gas Light Company announces that it will offer another scholarship in the gas engineering course at Johns Hopkins University, of Baltimore, beginning September 30, 1930.

This will be the sixth scholarship offered to Washington boys by that company.

The Johns Hopkins University is the first American university to establish a gas engineering department. Instruction was begun in October of 1924, with only three students, the work being initiated with the appointment of a Professor.

The rapid expansion of the gas industry into new fields of service has created an obvious need for men technically trained in engineering, including such branches as the manufacture, distribution and service of gas. The course, however, is designed to equip a student not only in these units but also in the many other industries which require fundamental training in both mechanical engineering and chemistry.

The undergraduate course consists of four years, the first two of which are devoted chiefly to fundamental and cultural courses, such as English, mathematics, physics and chemistry. These studies give a thorough grounding in the general principles of engineering, and the practical phases of manufacture and distribution are considered in special lectures given by men prominent in the gas and fuel industries. In the third and fourth years these are combined with professional studies in engineering, fuel analysis, etc., to an extent which should give the student a training and equipment enabling him to take an intelligent and increasingly responsible part in engineering undertakings. During the course of instruction, gas and by-product coke plants are visited and special opportunities are offered for experiments and research. It is required that each student while at the University spend a part of his summer vacation in actual employment in the gas or a related industry.

**Open to Washingtonians**

The scholarship offered at this time by the Washington Gas Light Company is open to residents of Washington or vicinity supplied with gas by the company or its subsidiaries, such residents, of course, to be able to meet the University requirements for entrance. The scholarship is worth \$450 per year for four years, which covers the cost of tuition, laboratory fees and other incidental expenses. The appointment to the scholarship will be for one year, the holder being eligible for reappointment from year to year, however, if he conforms in character, industry and ability with the standards and requirements of the University.

Application for the scholarship should be made at the office of the Secretary of the Washington Gas Light Company.

## Phi Eta Sigma Initiates Five Scholarship Men

MacNeil, Reeves, Stein, Greenberg, Pumphrey and Leventhal Attain Honor

On May 15, 1930, the George Washington University chapter of Phi Eta Sigma, men's honorary freshman scholarship fraternity, held its final meeting of the year. The chief event of the evening was the formal initiation of five new men into its ranks. Those who attained this honor are: J. Stearns MacNeil, George W. Reeves, Colman B. Stein, Samuel J. Greenberg, Lawrence P. Pumphrey, and Edwin Leventhal.

A discussion was held pertaining to the coming convention, and much interest was shown over the proposed installation of Phi Beta Kappa and Sigma Xi, two national honorary fraternities. Plans were also made for next year's program, which promises to be an attractive one. An initiation banquet was planned for next fall, and it was announced that the election of new officers would take place at that time.

## ALPHER MADE PRESIDENT

Sol Alpher was elected president; Irene Leonard, vice president; Ida Chernikoff, secretary; and David Rapoport, treasurer at the Menorah Society meeting of Tuesday, May 6.

## JUNIOR COLLEGE WILL BE STARTED HERE NEXT YEAR

Curriculum To Continue Studies Of a General Cultural Nature

DOYLE IS NAMED DEAN; ADVANTAGES EXPECTED

Easier Transition Is Expected Between Secondary Schools and the University

Establishment of a Junior College to care for the regular work of the first two college years in the George Washington University has been voted by the faculties. It is announced by Dr. Cloyd Heck Marvin, President of the institution. The Junior College will begin operation with the opening of the academic year in September. At the same time Dr. Marvin announces the appointment of Henry Gratton Doyle, formerly Dean of the Lower Division in Columbian College, as Dean of the Junior College.

The curriculum of the Junior College will continue studies of a general cultural nature begun in elementary and secondary schools, and will lay the foundation for more specialized college work which may follow. Upon the satisfactory completion of two years in the Junior College, students will be granted a Certificate of Junior Standing.

The faculty of the Junior College will be separate from that of the Senior College, although the personnel will overlap to some extent. It will be composed of those teachers who have devoted a large portion of time to the instruction of freshmen and sophomore subjects and who are particularly fitted, by personality and training, for the direction of the younger college students.

In the establishment of a Junior College the following advantages are achieved:

The Junior College will afford a better transition between secondary schools on the one hand and upper division college and professional schools on the other. With expert advice upon courses at registration time, and with a system of junior college and pre-professional advisers available to the student throughout the year, the problem of adjustment to college life will be materially lessened. It will provide closer cooperation with parents and will promote the development of the present program of personnel administration and vocational guidance.

The Junior College will act as a "service" school in preparing students for the Senior College and for the various professional schools of the University.

It will make a place in college for students who do not desire to enter upon a four-year course.

It is desirable from the standpoint of academic instruction that it will group freshmen and sophomore students together and junior and senior students together.

The Dean of the new Junior College has been associated with the George Washington University since 1916. He is thoroughly familiar with the educational problems of students, and through long service as adviser to student organizations, Dean of Men, and Dean of the Lower Division in Columbian College, has a sympathetic understanding of the life and interests of the student outside of the classroom.

## Journalists Hear Bell On Movies And Press

Growth of Movies Traced to Color and Sound Production

Nelson Bell, Sunday Editor of "The Post," in an address to Dr. Chace's Journalism Class Monday evening on "The Relationship between the Press and the Movies," outlined the growth of the movies from the penny Arcade days in the early nineteenth century to the modern all-sound, all-color productions.

Mr. Bell, who in his connection with both ends of the business, as a press agent for the movies and a reviewer for the newspapers, has had full opportunity to observe the growth of the movie industry, remarked that "the talkies have necessitated a personnel of more educated workers, with a more diversified knowledge, than the old silent pictures."

"Modern newspapers show two principal styles of criticism," said Mr. Bell. "There is the 'smart-aleck' type of review adopted particularly by the tabloids. It makes wise-cracks on the entertainment without telling the reader very definitely of the real value of the show. Then there is the conscientious criticism made by the reviewer to inform the public, to the best of his training, of the merit of the acting, photography, story, etc."

## The Hatchet Advocates:

1. A School of Journalism for The George Washington University.
2. The Erection of a Student Union Building.
3. Student Support for the New Constructive Athletic Policy of the University.

WASHINGTON, D. C., WEDNESDAY, MAY 21, 1930

## TO THE COUNCIL — HOPE

The Hatchet is very glad to see that that long dormant body, the Interfraternity Council, has come to life. The Council has taken a good step forward in inaugurating a serious set of rushing rules. We most certainly hope that the debacle of last fall will not be repeated.

By all rights, the Council should hold a place of importance in school life. Fraternities in many ways are of force in the University. However, this past year saw the Council drop in its position on the campus.

In the rushing rules adopted, there seems to be one serious flaw. In order to secure penalization of an offending fraternity, it is necessary to have a two-thirds vote of the Council. It is very doubtful whether any convictions will be obtained in case of violation, for when one will violate, others will also.

One thing is assured. If the Council falls down on the job for a second year the school authorities will have to take a hand; the incoming freshmen must be given a fair chance at the school before the Greeks are set upon them.

## THE JUNIOR COLLEGE

At a recent meeting of the faculty the establishment of a Junior College to care for the regular work of the first two years at the University, was voted. This step is in line with the present nation-wide Junior College movement which is ever becoming more popular.

The Junior College is a direct product of the twentieth century, although a few were existent in the 1800's. In the last thirty years their increase has been phenomenal. Though California and the Middle West are the most progressive in this respect, they are rapidly spreading over the entire continent. In 1928 there were 408 Junior Colleges with an enrollment of 50,529 students.

A large percentage of these Junior Colleges are a part of the public school system run in connection with the secondary schools, or are private institutions which give only two years work. George Washington is one of the few larger universities to incorporate such a college. The public school system of the District has not as yet seen fit to organize a Junior College, so the field in this city is comparatively free. Such a college connected with such an institution as G. W. has obvious advantage over either of the two types before mentioned. It will have the benefit of the faculty of the Senior College, for the personnels of the two will in all probability overlap. It will bring the students in contact with college organizations and activities which are on a more mature basis than those in secondary schools. The advantages over the old straight four-year course have been mentioned in the news article in this issue.

The Hatchet wishes to congratulate the Administration upon this step, because it shows that we are looking forward and will continue to progress in the future.

Sigma Chi gave a Mothers' Day tea at the house on May 11.

Sigma Chi gave a picnic on Sunday, May 18, at Great Falls.

Marjorie Moorman, Peggy Mays, Chris Spignul, Libby Baltz, Bob Adams, John Pittman, Scot Rigby, and Babe Whyte danced to the music of Guy Lombardo in Baltimore on May 15.

Theta Delta Chi gave a house party to its graduates on May 17, at the charge house. There was dancing from 9 to 12, to the tunes of Daniel Beattie's music. The house was changed into a country fair.

Sigma Nu gave a dance on May 16 at the chapter house. Music was furnished by the Collegiates.

Virginia Hayden, Virginia Conger and Rhoda McCaddon spent the week-end at Quantico as the guests of Captain and Mrs. Anderson.

O. A. T. gave an informal dance on Sunday, May 11.

Phi Mu wishes to announce the formal initiation of Edythe Mitchell on Thursday, May 15.

Alpha Delta Pi entertained the alumnae at its Founders' Day luncheon Thursday, May 15, at Woodward and Lothrop's. Other guests were Mrs. Marvin, Mrs. Joshua Evans, Miss Cooper, and Miss Daisy Watkins.

Pi Beta Phi entertained Dr. and Mrs. Ragatz at dinner in the rooms Monday.

Geraldine Free gave a garden party Sunday, May 18, in honor of Miss Annie E. Phillips, a Pi Beta Phi from California Delta and Miss Geraldine Phillips.

Caroline Schreiner entertained a few friends at a dinner party at her home Thursday, May 15.

Ruth Bell, Mary Ewin, and Mary Alice Stadden were among the guests at a birthday party given by May Brook.

Katherine Hawley and Mary Ewin attended the meeting of the Mathematics Association of America in Baltimore.

Helen Kerr, of Fortress Monroe, Va., is spending the week in Washington with Barbara Miller.

Eta and Beta Chapters of Phi Alpha at Hopkins and Maryland University Graduate School gave a joint dance at the Southern Hotel in Baltimore on Sunday, May 11. Members of Alpha G. W. Chapter attended.

Installation of officers of Pi Beta Phi was held Monday night at the home of Lois Thompson, Gamma Province President.

The Executive Council of Pi Beta Phi entertained the new initiates at a party at Peggy Pledgers, Friday, May 16.

Professor Paul W. Bowman is attending the Virginia Academy of Science meeting in Lynchburg. He is delivering a paper, "Pollin Analysis of Peat As Found in a Quebec Bog."

Sigma Kappa announces the formal initiation of Jane Bogley, Helen Bartel, Marion Flick, Mildred Lutz, Josephine Rayson and Marion Rittenour.

Adele Black spent the week-end of May 16th in Atlantic City.

Polly Pollard motored to West Point for the week-end and attended the hop there Saturday night.

Claudia Kyle and Louise Stokes spent the week-end at William and Mary.

Margaret Blackstone, Helen Chaffee, Jean Westbrook, Edith Brookhart and Inge von Lewinski accompanied the tennis team on their trip to Harrisonburg over the week-end of May 10.

The Women's Athletic Association entertained all those who had participated in any Intra-Mural sport during the past year at a picnic at Widewater on Saturday. The visiting tennis team from William and Mary were also guests of the G. W. Association.

Delta Zeta installed a new chapter, Beta Theta, at Swarthmore on Saturday, May 10.

Alpha Epsilon Phi gave a Mothers' Day tea at the home of Helen Nordlinger on Sunday, May 11.

Delta Zeta is having a benefit theatre party at the National, June 2. The play is "The Old Homestead."

Marion Cox, Margaret Hicks, Don Gardner, Bob Wilson, and Don Farris attended a supper party at Frances Owens' home after the Pan-Hell Prom.

Edna Matthews gave a bridge luncheon Saturday, May 17.

Mary Clark entertained at a tennis party and supper at her home Sunday afternoon. Those present were Evelyn Kerr, Ruth White, Ev-

erett Dahl, Roger Marquis, and William Ingersoll.

The Newman Club gave a dance at the Congressional Club, May 16.

The Mothers' Club of Kappa Kappa Gamma had a meeting at the home of Mrs. Z. T. Blackstone, May 15.

Dick Hill spent the week-end of May 13 at Virginia Beach.

Margaret Blackstone entertained at her home on Bradley Lane after the Pan-Hellenic Prom. Among those present were Betty Reynolds, Evelyn Standley, Judy Fishburne, Ada Green, Jean Westbrook, Edith Brookhart, Hermie John, Winifred Faunce, Winnie Beall, Jane Wilson, Jean Jackson, Jane Allen, Frank Bearce, Jack Royce, Briant Davis, Dick Hill, Fletcher Henderson, Walter Colson, Quincy Lee, Frank Westbrook, Tom Littlepage, Paul Turner, and Trimble Sawtelle.

Sigma Chi had an informal party at the house on May 12.

Kappa Kappa Gamma held a Progressive Dinner Party on Thursday, May 13.

Hazel Gabbard spent the week-end in New York.

The student group of American Pen Women held a tea on Sunday, May 18.

Muriel Davis and Jane Menefee dined at the Theta Delta Chi House last Sunday night.

A shower for Estelle Smith was given on May 15 at the home of Helen Drew.

The Sigma Kappa pledges gave their goat show on Monday night, May 12.

Phi Delta gave its Spring Dance on Friday, May 16, at the Grace Lodge Hut.

The Phi Deltas entertained Ethel Eislund at a party given at the home of Beryl Loughlin on Saturday, May 17.

Aileen Boswell is entertaining the Phi Mus at a bridge luncheon at the Dower House, Friday, May 23.

Beta Chapter, Phi Delta Gamma Graduate Sorority, announces the formal pledging of Louise Omwake and Olive Chase at a tea given by Camille DuBoise in the Sorority rooms on May 4.

On May 14 Phi Delta Gamma entertained at dinner at the A. A. U. W. headquarters in honor of the patronesses, Mrs. Cloyd Heck Marvin, Mrs. V. G. Barrows, Mrs. Joshua Evans, Jr., and Miss Elizabeth Cullen.

The Newman Club held its formal spring prom at the Congressional Country Club on Friday evening, May 16th. Favors were combined programs and address books with the Newman seal and colors. Entertainment features consisted of

popular songs and tap dances. The Prom Committee entertained over the week-end for its out-of-town guests from other Newman Clubs.

Acacia announces the formal initiation of Robert Brumbaugh and Thomas Graves, on Sunday, May 18.

## MED-ECHOES

During the past week students of the Medical School attended several lectures of a highly interesting and instructive nature by men well known for their activities in the medical world. On May 14, Dr. Fishbein, editor of the Journal of the American Medical Association, lectured on the evolution of quackery and its present existence.

Dr. Seiffert, eminent Chicago surgeon, gave an illustrated talk on Thursday, May 15, on the subject of gastro enterostomy. Moving pictures were shown on the latest surgical procedure for the treatment of ailments of the stomach and intestines.

Dr. Edmonds, professor of pharmacology at the University of Michigan, talked to Dr. Ross' class on the history of homeopathy. Dr. Edmonds was one of the early investigators of the therapeutic action of digitalis.

Dr. Joseph B. DeLee, professor of materia medica and therapeutics, is a member of the National Committee on Revision of the Pharmacopoeia, which convened in Washington on May 13 for a three-day session. Meetings of the committee are held every ten years for the consideration of revisions of and additions to the U. S. Pharmacopoeia.

## MRS. BARROWS INSTALLS CHAPTER OF HONOR FRAT

Alpha Lambda Delta Appears At Penn. State

Mrs. Vinnie G. Barrows, Director of Personal Guidance to Women, will leave Saturday morning to install a new chapter of Alpha Lambda Delta that afternoon at the State College, Pennsylvania. Alpha Lambda Delta is a comparatively new but growing national honorary scholastic fraternity for freshmen women.

A chapter of Alpha Lambda Delta was established at George Washington at the start of the second term this year. Its formation here already has simulated scholarship on the part of the first year students; inasmuch as the eligibility requirements are fifteen hours of work completed in one semester with grades of A or B, over half being the grade A.

Jane Menefee, Virginia Gummel, and Rae Miller were recently elected as officers for next year.

## SOUND FILM IS SHOWN TO MEDICAL SOCIETY

Dr. DeLee, Eminent Gynecologist, Addresses Group On Interesting Obstetrical Problems

Dr. Joseph B. DeLee, of Chicago, eminent gynecologist, came to Washington (Saturday, May 17), to address the final meeting of the year of The George Washington University Medical Society. The meeting was held at The George Washington University Medical School, 1335 H Street.

Dr. DeLee, who is an authority on obstetrics and author of the standard text in that subject used by medical schools throughout the country, showed a five-reel sound motion picture of obstetrical problems taken by him some weeks ago, and which is now being exhibited for the first time before any medical group.

The George Washington University Medical School had installed a sound reproducing machine in the main hall at the Medical School especially for the presentation of this unusual program.

Dr. DeLee has been Professor of Obstetrics at Northwestern University since 1897. A graduate of the Northwestern University Medical School, he has studied in Vienna, Berlin and Paris. He is the founder of the Chicago Lying-In Hospital, of which he is the Medical Director and President of the Medical Staff. Dr. DeLee is a fellow of the American Gynecological Association and American College of Surgeons, and a member of the American Medical Association, Chicago Medical Society and Chicago Gynecological Society.

The George Washington University Medical Society has presented during the year a series of interesting professional programs, among which was an address by Dr. George W. Crile, of Cleveland, famous thyroid and goiter specialist. The society was founded in 1905 by alumni of The George Washington University School of Medicine. Officers of the society are: Dr. Daniel L. Borden, President; Dr. John Reed, Vice President; Dr. H. Lynn Colvin, Secretary, and Dr. W. Raymond Thomas, Treasurer.

There's a Silver Lining

in the **Pause** that refreshes

So many unhappy things can happen to increase that old inferiority complex. Deans and Doctors, Mid-years and Finals, all dedicated to the cause of making life a burden. Coca-Cola was made for times like these. Here's a drink that will quickly invest you with some of its life and sparkle. Give you exceeding joy in its tingling, delicious taste. And leave you with that cool after-sense of refreshment in which a righteous megalomania may wax fat and prosper.

## COLUMBIAN NINE WINS BALL TITLE

League Championship Won In Fifth Consecutive Victory Of Season

### LAW SCHOOL BEATEN, 3-2

Vogt Wins Pitchers' Battle From Howlett and Clapper; Winning Run Scored in Extra Inning

#### FINAL STANDING INTRA-MURAL BASEBALL LEAGUE

Team	W.	L.	Pct.
Columbian College	5	0	1.000
Law School	4	2	.666
Pre-Medical	3	2	.600
Pharmacy	1	4	.200
Engineering	0	5	.000

#### Final Game Result

Columbian College, 3; Law School, 2.

By trimming the Law School nine 3 to 2 in the final slated game of the George Washington Intra-Mural Baseball League played last week, Columbian College baseball artists hung up their fifth consecutive victory of the season. The triumph gave the Columbian team the league championship for this season. It was a "pip" of a game, and the "student lawyers" may well rest assured they put up a plucky battle in an endeavor to deadlock the standing for the leadership of the circuit. In fact it took an extra inning for the "Columbianites" to rush through with the third and deciding run, but it was sweet when it was registered.

Lee, playing right-field for Columbian College, scored the winning run, crossing the rubber with two men out when Mulvey, one of his partners in the outer garden, socked the apple for a triple. Lee reached base on a pretty single.

Howlett and Vogt were the starting pitchers. Vogt pitched the entire game for the winners, but Howlett was compelled to surrender the mound duties to Clapper. Vogt was very effective on the hill, allowing the opposing batters only two hits, one by Wick, and another by Clapper. The latter scored both runs for the Law School. Vogt was credited with nine strike-outs. The slugging of Mulvey, Crandall, and Caruso proved tartar to the Law students.

Both teams tallied in the second inning, and the count remained 1-1 until the fourth frame, when Law School forged ahead by a one-run margin. Clapper scored after hitting a three-bagger. Columbian rallied in the last inning, Crandall bringing in the second run on Caruso's single to deadlock the score at 2-2. Then came Lee's single, and Mulvey's long clout to register victory and to decide a championship. It was an interesting game to witness, and a number of G. W. students watched the hotly contested battle.

Columbian College was represented by the following line-up of diamond artists: Sommers, catcher; Vogt, pitcher; Sturtevant, first base; Wells, second base; Jones, third base; Caruso, shortstop; Mulvey, left field; Crandall, centerfield, and Lee, right field. The Law School line-up was: Young, catcher; Howlett and Clapper, pitchers; Wick, first base; Gates, second base; Lowden, third base; Herrick, shortstop; McNeill, left field; Veazey, center field, and Clapper and Howlett, right field.

### NEW PLANS SUGGESTED AT MEETING WEDNESDAY

At a meeting of the Women's Athletic Association on Wednesday, May 14, at 8 o'clock, it was decided to recommend to President Marvin that track be made a minor sport next year.

Edith Brookhart made a speech on the proposed swimming club for next year. This will be merely for pleasure and will give no credit for gym.

An outing club is to be formed with the same purpose in view. Mary Hudson explained that they were planning to get a shack up the river which could be used by the organization for week-end trips. It will also probably be available to sororities and fraternities.

Miss Elizabeth Cullen, the president of Columbian Women, gave a very interesting talk on riding clubs in general with a view to one being formed at George Washington next year.

## All-Star Baseball Club Organized Here

Team Captains and Managers Choose Men from Circuit Teams

Last Friday, an all-star aggregation of baseball stars was chosen in the G. W. gymnasium by members of the Athletic Department, managers and captains of teams in the Intra-Mural League. They made their choices from the teams which comprised this season's circuit: Columbian College, Law School, Pre-Medical, School of Engineering, and Pharmacy.

Those chosen for the all-star club were as follows: Young, Law School, catcher; Vogt, Columbian College, Clapper, Law School, and A. Levine, Pre-Medical, pitchers; Sturtevant, Columbian College, first baseman; Burgess, Columbian College, second baseman; Howlett, Law School, third baseman; Hetzel, School of Engineers, shortstop; Wells, Columbian College, left fielder; Crandall, Columbian College, centerfielder; and Lowden, Law School, right fielder. The Columbian College winning team placed five of the eleven stars on the honor list.

Athletic Director Pixlee and Max Farrington announced that the eleven players mentioned above will be awarded sweaters and intramural letters for the exceptionally fine showing they made on the diamond this season.

### TENNIS AND GOLF AWARDS TO BE MADE IN TOURNEYS

Trophies to be awarded winners of the tennis and golf tournaments being sponsored by George Washington Athletic Department have been placed on display in the G. W. gymnasium. Many students have already seen them.

Three trophies are on display, one of which will be awarded the winner of the golf tourney, and the others to winners of the Upper and Lower Brackets of the G. W. tennis tournaments.

The trophies have been furnished by the University, and will be under the care of Max Farrington until the tournaments end, when awards will be made.

### PANEL PROM TERMED SUCCESSFUL THIS YEAR

The annual Pan-Hellenic Prom was held in the Gold Room of the Wardman Park Hotel last Tuesday evening. The ballroom was decorated with the banners of the sororities giving it a true Pan-Hellenic atmosphere. The music was the Lido Band.

An innovation this year was the addition of the stag line which may become a permanent custom. Judith Steele, President of the Pan-Hellenic Association presented the Bridge Trophy Cup to the Alpha Delta Thetas, who were the winners in the tournament this year.

### FOREIGN SERVICE FRAT ELECTS NEW OFFICERS

At a meeting of Delta Phi Epsilon, foreign service fraternity, held on Monday, May 12, Ernest S. Parker was elected president. Other officers chosen include Tremaine Rambo, vice president; Emory Bundy, secretary; Howard S. Payne, treasurer; Frank H. Weitzel, historian, and Willard F. McCormack, sergeant-at-arms.

An announcement was made of the national convention to be held in Washington from June 19 to June 23. Harold Steinhart was elected delegate of the George Washington Chapter to the convention.

### INTRA-MURALS PICNIC

A very successful season of women's intra-mural sports was brought to a close on Saturday afternoon, May 17, by a picnic at Chain Bridge, from 2 to 6 o'clock.

All girls who had participated in intra-mural sports the past year were invited to attend. They met at the gym at 1 o'clock and all journeyed out together.

The guests of the afternoon were the physical education staff, together with the co-ed tennis teams of G. W. and William and Mary, who had just played a hard-fought match, in which G. W. was victorious.

Since the weather would not permit swimming, the chief feature of the afternoon was wading, which proved a very popular sport.

### FISHBEIN GIVES LECTURE

Dr. Morris Fishbein, noted physician, lecturer, and writer, and editor of the American Medical Association Journal, visited the George Washington Medical School last Wednesday and gave a very entertaining talk on charlatanry and quackery in medicine. He traced the rise and development of the charlatans from the earliest periods down to modern times, illustrating his talk with amusing stories of actual occurrences.

### EIGHT MEN INITIATED INTO PYRAMID HONOR SOCIETY

(Continued from page 1) has been a member of the Glee Club for four years, a member of the orchestra for two years, and has appeared in dramatic productions of the University for two years. He has been a member of the Publications Council for two years, and is a member of Phi Delta Epsilon.

Thacker has participated in two years of varsity and one year of freshman basketball, as well as taking part in golf matches and interfraternity sports. He is a member of Phi Sigma Kappa; Phi Eta Sigma, freshman honorary scholastic fraternity; Omicron Delta Kappa, and Gate and Key.

## SIGMA NU CARRIES OFF HONORS IN TRACK MEET

Sigma Nu Scores in Every Event But One in Inter-Frat Track Meet

The Sigma Nu cinder path artists carried off the honors in the interfraternity track meet which was held on Saturday, May 17, at Eastern Stadium.

They were unusually strong in all departments, scoring in every event, but one.

Hunter Keller of Sigma Nu was the individual star of the meet, winning the 50- and 100-yard dashes and running on the winning relay team.

Bob Hall, of S. A. E., broke the interfraternity record for the high jump, by clearing the bar at 5 feet 8 inches.

The results were as follows: Sigma Nu, 29 1-3 points; Sigma Alpha Epsilon, 16 points; Theta Delta Chi, 7 1-3 points; Acacia, 5 points; Delta Tau Delta, 1 point; Phi Sigma Kappa, 1-3 point. Shot put—Krimelmeyer (Acacia), 45 ft. 5 in.; second, Weisbradt (Sigma Nu); third, Adams (S. A. E.). 50-yard dash—Keller (Sigma Nu), 5 1-2 seconds; second, Carlin (Sigma Nu); third, Hall (S. A. E.).

Broad jump—Carlin (Sigma Nu), 19 ft. 5 in.; second, Nyman (Theta Delta Chi); third, Cluster (Delta Tau Delta).

100-yard dash—Keller (Sigma Nu), 10 1-2 seconds; second, Atkin (Sigma Alpha Epsilon); third, Thomson (Theta Delta Chi).

High jump—Hall (S. A. E.), 5 ft. 8 in., new record; second, Weisbradt (Sigma Nu); third, tie between Evans (Theta Delta Chi), Gray (Phi Sigma Kappa), and Gibbons (Sigma Nu). 220-yard dash—Burgess (S. A. E.), 23 1-2 seconds; second, Thompson (T. D. X.); third, Blaine (S. A. E.). Relay, won by S. N. (Carlin, Hawes, Stearns, Keller), 48.4 seconds.

### STUDENTS ARE URGED TO TURN IN MATCH RESULTS

Students who are entered in the golf tournament arranged by the Athletic Department of the University, are urged to report results of tournament matches to Max Farrington at the gymnasium as soon as possible after the matches have been played. Due to the fact that many entrants have delayed in reporting results of matches the golf tournament is progressing more slowly than it should. Cooperation in this respect is urged by Farrington, who keeps a chart in the gym of tournament match results, and anyone interested in the progress of the tourney may see it there.

### VILLARD DISCUSSES TRIP IN TALK TO LIBERAL CLUB

Tells of Religious and Economic Conditions

Oswald G. Villard, editor of the Nation Magazine, spoke to the Liberal Club on Friday, May 16, in Corcoran Hall 1. Mr. Villard, who recently completed a trip through Russia, gave a very interesting talk on the economic and religious conditions of that country. He said that the present régime is bound to fail because of the fact that it is founded on the idea of terror, and brought about by use of martial means.

He also states that the conditions of living, better factories, and general activities of the country as a whole are much improved over the czarist régime. The industries of the country at the present time are tending toward the ideas of the American industries.

This lecture was well attended by university students. Professor Ragatz of the University introduced Mr. Villard to the Club.

### COLLEGE BOARDS ARE HELD AT UNIVERSITY

College Entrance Examination Board examinations for Washington and vicinity will be held at George Washington University from June 16 to June 21, 1930. The examinations will be supervised by two officers of the University, Registrar Harold Griffith Sutton being in charge of the examinations for girls and Dean Harry Gratton Doyle being in charge of the boys. With the exception of certain private schools, these are the only examinations of the Board held in Washington.

Dean Doyle has been connected with the College Entrance Examination Board continuously since 1915, having served as reader in French and Spanish, supervisor of examinations, and examiner in Spanish. He has been a member of the national committee of examiners in Spanish for three years. Professor Sutton succeeds Dean Charles Edward Hill, who has been in charge of the examinations for girls for several years.

### GLIDER CLUB INSTRUCTION STARTS AT HOOVER FIELD

There was considerable excitement in back of Corcoran Hall last Wednesday. Professors were unable to control their curiosity as were the students—it proved very detrimental to the first floor classes. The Glider Club jinx had finally been broken for the much delayed Glider was successfully put together. It is a Primary Type Glider, constructed by the Aerial Glider Company of Indiana.

Instruction in flying began Saturday at Hoover Field for the members of the club. Students of G. W. U. may still join by sending their applications either to Dr. Holt or to Thomas Littlepage, the president of the club.

## INTERFRAT TENNIS ENDS

Next Sunday will see the finals of the Interfraternity Tennis Tournament in which the parties participating will be the teams of Theta Delta Chi and Sigma Chi. The Theta Deltas won their way to the finals by virtue of their wins over the Phi Sigs and the T. U. O's. Sigma Chi defeated Sigma Nu in the semi-finals to win its way to the cup match. This match should be of interest to all as it was only by superb playing that the teams playing were able to reach the finals in this tournament.

## G. W. U. Racqueteers Down U. of Richmond

Southerners Fail to Register Single Victory in Seven Matches

The George Washington tennis team has added another victory to its list of defeated teams. The University of Richmond racqueteers were defeated last Tuesday on the courts of the Edgemore Country Club. The Southerners did not register a single victory in seven matches.

Considine and Phillips, ranking men on the Buff and Blue squad, did not play. Stably was moved from number three to the number one position and defeated his opponent, Eacho, in straight sets.

Allen, playing number three, was the G. W. man forced to three sets before downing his opponent. He lost the first set by a score of 3-6, but fought back to win the last two sets by scores of 6-4, 6-0.

Summaries:

**Singles**  
Stably, G. W., defeated Eacho, 6-2, 6-1; Edge, G. W., defeated Harlan, 6-1, 6-1; Allen, G. W., defeated Hatcher, 3-6, 6-4, 6-0; Goldsmith, G. W., defeated Crawford, 6-4, 6-1; Edwards, G. W., defeated Ligon, 7-5, 6-3.

**Doubles**  
Stably and Edge, G. W., defeated Eacho and Harlan, 6-4, 6-3; Goldsmith and Edwards, G. W., defeated Crawford and Hatcher, 6-3, 6-3.

### FRESHMEN WIN FIELD DAY

By winning in both baseball and track, the freshmen placed first in the Women's Intramural Field Day held on the Ellipse Tuesday, May 13. K. McCallum and Wilhelmina Gude were the individual high point scorers.

The results of the events are as follows:

**TENNIS**  
Winners—Sophomores.  
(Four matches out of five.)

**Scores:**  
**Singles** ..... (6-4) (6-4) (6-1) (8-6)  
**Doubles** ..... (6-0) (6-3) (6-1) (6-2) (7-5) (6-3)

**BASEBALL**  
Winners—Freshmen.

**Scores:**  
Frosh vs. Soph. Team 1 ..... 6-3  
Frosh vs. Soph. Team 2 ..... 10-11  
**Total** ..... 16-14

**TRACK**  
Winners—Freshmen.

**Scores:**  
First Place, Freshmen ..... 180  
Second Place, Sophomores ..... 173  
Third Place, Juniors ..... 151

**ARCHERY**  
Winners—Sophomores.

**Scores:** Hits, Score.  
Sophomores ..... 65 282  
Freshmen ..... 51 183

### MATH CLUB HAS MEETING

The last meeting of the Math Club was held Monday evening, May 5. Dr. F. E. Johnston was the speaker. The subject discussed was the picnic to be held on June 7 at Chapel Point. There will be a twenty-five cent charge for each member who attends.

There will be no more meetings of this club this year. Its regular meetings took place on every other Monday evening in Corcoran Hall.

Show the folks a real time! Rent a Saunders System Car for the week. Drive anywhere, anytime. Get our 5-day prices for fraternities, clubs and individuals for any occasion—anytime.

## W. A. A. Final Banquet Features New Awards

"Gypsy Gold" Is Theme of Decorations and Program Events

The third and last W. A. A. banquet of the year was held at the Beaver Dam Country Club on Tuesday, May 20.

The decorations and program of the event were woven around a gypsy theme. Miss Ruth Atwell, Miss Janet Jones, and Miss Helen Lawrence were in charge of this function. Roberta Wright, the new president of the association, acted as toastmistress and distributed "gypsy gold," the spring athletic awards, among those girls who had earned them.

Jean Westbrook, Helen Manning, Dorothy Black, and Elizabeth Wright, figured in the entertaining musical program. The speakers were: Miss Atwell, Roberta Wright, Louise Omwake, Betsy Booth, and Jenny Turnbull.

Jenny Turnbull, an outstanding member of the varsity hockey, basketball, and tennis teams, was awarded the W. A. A. cup for the best athlete in the senior class. Josephine Dunham received the Columbian Women's cup for winning the fall singles tennis tournament. Blazers were awarded India Bell Corea, Gene Cuvillier, Claudia Kyle, and Roberta Wright. Major tennis letters were won by Mary Detwiler, Jenny Turnbull, Judy Fishburn, Mary Beall, Marion Butler, and Winifred Beall, manager. Louise Berryman, Catherine McCullum, Carolyn Snyder, and Wilhelmina Gude received minor letters in track, which was recently made a minor sport. Class numerals were awarded the sophomore tennis and basketball teams as winners of both these interclass series.

## CO-ED NET PLAYERS WIN 3-2 VICTORY OVER W. & M.

Success of Women's Tennis Match Turns On Doubles

The Colonial Women's Tennis team, strung up a victory for the Buff and Blue, when they defeated the college of William and Mary 3-2 in Washington, on Saturday.

G. W. players won the match only through the success of their doubles play, as both Turnbull and Fishburn lost their singles matches.

Mary Detwiler, first ranking player on the Washington team, easily defeated her opponent, Massett, 6-0, 6-3. Turnbull and Fishburn were overpowered by Booth and Beale, respectively, after indifferent play.

In the doubles matches Turnbull and Detwiler failed to score two sets over Beale and Massett, while Sprout and Butler took their match from Chewning and Dunley.

After the matches the two teams drove out to Widewater where the girls who had participated in intramurals were holding a picnic.

## BAPTISTS HOLD MEETING

The last general meeting of the G. W. Baptist Student Union was held in Corcoran Hall Friday evening with John L. Bass, recently elected 1930-31 president in charge.

## THE ENGLISH BUILDING OF SALTZ BROTHERS

Correct Apparel for College Men  
**SALTZ BROTHERS**  
1341 F Street N. W.

The oven...  
the cook...  
and the cake

"Only fine ovens produce cakes of fine texture." This rule applies as surely to the most complicated "cake-baking" process in modern industry... making steel castings for high pressures... as it does to the simplest domestic cookery. In basic-lined Heroult electric furnaces that apply the heat directly and cleanly to the metal and permit exact control of temperatures at every stage, the steel for Crane cast steel valves and fittings is prepared. Every casting is annealed under temperatures held at 1600° F. for hours, then slowly shaded off to cooling. Interesting as is the Vulcan-like foundry equipment in Crane foundries, complete as are the manufacturing resources that give exactness and uniformity in production, the vital secret back of quality in Crane electric steel materials is not the "oven" but the skill of the "cooks"... the chemists, the superintendents, the workmen who watch and control each step and process. Through 75 years, this skill has been developed and refined. Back of it is an exhaustive scientific library of laboratory studies and test charts. Much of the data that has enabled Crane Co. to produce dependable valves for the enormous pressures and temperatures now used in industry is collected in a book, "Pioneering in Science." It is a valuable reference book for students. Let us send you a copy.

## MEN'S GLEE CLUB SINGS IN CONCERT

Program Includes Selections by Richard Kilstein, Tenor Soloist of Club

### HISTORY OF GROUP GIVEN

George Washington To Be Entered As Defending Champions In 1931 Finals

The George Washington University Men's Glee Club appeared in a concert at the Mayflower Hotel on the evening of Tuesday, May 20, at 8 o'clock.

The annual concert of the club was of especial interest this year, as it afforded Washington its first opportunity of hearing the George Washington singers in a full concert program since the club won the National Intercollegiate Glee Club award in March.

The program of the concert was the most pretentious and best balanced ever sung by the club, and included selections by Brahms, Gounod, Praetorius, and a Bach chorale, as well as a group of solos by Richard Kilstein, tenor. Dr. Robert Howe Harmon, leader of the club, directed them.

The George Washington University Men's Glee Club, one of the oldest organizations of the University, was re-established nine years ago after a period of inactivity and since that time has won for itself local, and more recently, national recognition.

The club's first year of renewed activity was marked by concerts for various organizations in and around Washington, and by a concert given at the University for the student body. In the early part of 1925 the club sang its first theatre en-

gagement in Washington, as the week's headliner at the Rialto Theatre. In the spring of 1926 the group was engaged by Keith's Theatre as a headline attraction, and during the same year sang at the Annual National Vaudeville Actors' Benefit midnight show at Keith's.

In the spring of 1927 the club sang for a week on the program of the Earle Theatre and during the same week sang again at the N. V. A. benefit. Later in this same year the club participated as one of the acts in the mammoth midnight show given at Poli's Theatre for the benefit of the victims of the Mississippi flood disaster.

In 1928 and 1929 joint concerts were held with the Columbia University Glee Club here in Washington. Last year this concert took place at the Mayflower, and was one of the most brilliant University social events of the season.

The 1929-30 season has been the most successful in the history of the club. Participating for the first time in the National Intercollegiate Glee Club competition, the club was awarded first honors, a distinction which previously had been won only by five universities, Yale, Dartmouth, Harvard, Princeton and Wesleyan.

As the 1930 champions, the club will enter the national competition next year without the necessity of participating in a sectional contest, although it will appear in this event. The singers are eager to retain the trophy, which holds a place of honor at the University this year, but which will remain the permanent possession of the club only if it won by it three times.

## Portable Phonofilm Is Demonstrated at G. W.

Projector is of Particular Value to Scientists, Lecturers and Students

One of the General Electric Company's newest products made its debut on the G. W. U. campus a few days ago when a limited audience was entertained through the medium of a portable phonofilm set. The portable set is being taken on a tour under the direction of Mr. Olsen of the Schenectady Laboratories of the General Electric Co. It consists of a complete outfit for showing General Electric Photophone films, and the disc or Vitaphone type of sound record.

Readily portable, easily set up, and requiring only a small truck for hauling, this sound-film projecting is unique. General Electric has perfected it primarily in order to make possible mass dissemination of information compiled by eminent scientists and lecturers from their own laboratories. Of particular value and desirability are the close-ups, with their line of running talk making clear details which the silent film lost with its subtleties.

Pictures shown were a five-reel film, "Oil Films in Water" by Dr. Irving Langmuir; "Composition and Transformation of Matter" by Sir Ernest Rutherford, who could not be easily followed because of his difficult subject and speed in talking; and "Electric Ship Propulsion," a demonstration of the S. S. Virginia, the electric drive ship built recently by General Electric for coastwise passenger travel.

## MEALY IS NEW PRESIDENT

El Circulo Espanol de George Washington University held its final meeting of the year last Wednesday night in Corcoran Hall. Officers for the coming year were elected at the meeting. Those named were: President, Raymond Mealy; Vice President, Ruth Rankin; Secretary, Norma D. Layton; and Treasurer, Ruth Allen.

Preliminary announcement of a prize essay contest, which will be conducted by the club next year, was made at this meeting by Senorita Ahumada, faculty adviser to the organization. The subject of the essays will be some phase of the life of Simon Bolivar, South American hero. Prizes will be given for the best papers.

## HAWKINS ELECTED BY GREEK COUNCIL

Hawes, Gray, and Fleck Also Receive Offices Last Meeting

### RUSH RULES FORMULATED

Stronger Laws Are Made Which Council Will Enforce Next Year

Norment D. Hawkins of Kappa Sigma, was elected president of the Interfraternity Council for 1930-31 at a meeting held at the Phi Sigma Kappa house on Monday, May 12. The other officers installed at the annual election were Richard P. Hawes, Sigma Nu, vice-president; Robert M. Gray, Phi Sigma Kappa, secretary; Charles Fleck, Acacia, treasurer, and the following committee chairmen appointed by Hawkins: Social, Arthur Darton, Sigma Phi Epsilon; athletic, Steele McGrew, Theta Upsilon Omega, and scholarship, Cal Lacey, Sigma Chi.

The following new delegates were installed to serve during the school year 1930-1931: Calvin Lacey, Sigma Chi; Norment Hawkins, Kappa Sigma; George Terry, Kappa Alpha; Erwin Stum, Theta Delta Chi; Robert Gray, Phi Sigma Kappa; Charles Cole, Delta Tau Delta; Brad Swope, Sigma Alpha Epsilon; Arthur Darton, Sigma Phi Epsilon; Richard Hawes, Sigma Nu; Charles Fleck, Acacia, and Steele McGrew, Theta Upsilon Omega.

The long awaited interfraternity rushing rules have at last been drawn up and voted upon by the Council. The new rules place the enforcement of the rushing agreement in the hands of the Council rather than with the extinct office of the "Dean of Men," which will mean the mutual policing of rushing and pledging by the fraternities.

The adopted rushing rules are as follows:

1. No man shall be pledged by any fraternity who is not registered in the George Washington University.
2. No man shall be pledged by any fraternity during any period that the George Washington University is not in session.
3. No man shall be rushed or pledged during the period of registration, prior to the opening of school, or for seven days after the opening of school.
4. After a man has been pledged, and his pledge is broken or rescinded, he may not accept another pledge for a period of one semester or four months.
5. The enforcement of the rushing rules adopted by the Council shall be in the hands of the Council. No fraternity shall be convicted for violation of the rules, except by a two-thirds vote of the fraternities who are members of the Council.

The rules for computing scholarship averages will remain the same as heretofore.

## A. S. M. E. ELECTS RADUE CHAIRMAN FOR NEXT YEAR

Richard G. Radue was elected chairman of the George Washington branch of the American Society of Mechanical Engineers for the school year 1930-31, at a meeting held on Wednesday, May 14. G. N. Jackson was chosen vice-chairman, and J. Reznick, secretary.

Walter B. Lawrence of the Mechanical Engineering faculty was elected honorary chairman. H. J. Stabler of the United States Geological Survey presented an illustrated lecture depicting his experiences while surveying the Colorado River Canyon for dam sites. A comparison of the available sites was made, and their economic feasibility was discussed. The expedition was made in 1923, and one of the special boats used now rests in the Smithsonian Institution here.

## PI BETA PHI WINS CUP FOR SORORITY DEBATE

Pi Beta Phi after defeating Alpha Delta Pi in debate, is to be presented with the cup offered by Delta Sigma Rho, honorary forensic fraternity. The debate that determined the championship was held Friday, May 16th, and was judged by Professor Fleming of the Public Speaking Department of the American University, who gave a single critic decision. The subject debated was, "Resolved: That the Regular Full Time Employment of Married Women in Industry be Discouraged." Louise Bruce and Helene Kreutzer took the negative for A. D. Pi. Maude Hudson and Louise Berryman were affirmative for Pi Phi.

So much interest has been taken in the debates this year that it is to be an annual intersorority affair hereafter.

## WOOD SPEAKS AT DINNER

The Delta Sigma Rho, honorary forensic fraternity, held its annual banquet at the University Club, on May 3. Dean Woods of American University, who is a charter member of the fraternity, was the guest speaker, and delivered a very interesting address on "The By-Products of Public Speaking." The dinner was also in the nature of a farewell to Professor Earl C. Arnold, of the Law School, who has been the sponsor of the chapter for the past two years.

The formal initiation of the new members, Virginia Frye and Charles Laughlin, followed the banquet.

The officers for the coming year are: President, Harryman Dorsey; Vice President, Hearst Duncan; Secretary, Helen Prentiss.

## Phi Sigma Kappa Wins Decision In Debate Finals

Phi Sig Defeats Theta Delta Chi In Finals of Infra-Frat Debate Contest

Before an interested group of fraternity and sorority members Phi Sigma Kappa defeated Theta Delta Chi May 16 in the finals of the interfraternity debating contest, conducted by Professor W. Hayes Yeager, and Delta Sigma Rho, honorary forensic fraternity. Phi Sigma Kappa had previously beaten Acacia, and Sigma Chi while Theta Delta Chi had triumphed over Kappa Alpha, Sigma Alpha Epsilon, and Tau Alpha Omega.

The question involved was Resolved: That the installment buying of consumption goods should be discouraged. Carroll J. Doering, and Thomas S. Jackson, of Phi Sigma Kappa upheld the affirmative side of the argument, while Frank Westbrook and William Thomson, of Theta Delta Chi, supported the negative. Professor Yeager himself, judged the debate with Mr. Laughlin, of Delta Sigma Rho, as chairman. The affirmative contended that installment buying should be discouraged on the grounds that it leads to extravagance, continued debt, business depression, that it was not conducive to thrift, and finally that the people themselves were not in favor of it. On the other hand the negative showed that it was necessary in industry, that it widened the market, and that it has stood the acid test of business depression and is still outstanding in industry. Responsible authorities were quoted on both sides as proof of the arguments.

Professor Yeager, in rendering his decision, said that the debate was exceedingly interesting and closely contested, and that the contestants were to be congratulated on their work. The professor gave a short resume of the debate, showing the various merits and faults of the speakers, and telling just how he came to his decision.

## Fellowships In Forest Education Are Given

Charles Lathrop Pack Forestry Trust To Educate Scholarship Recipients

The Charles Lathrop Pack Forest Education Board, founded by the Charles Lathrop Pack Forestry Trust, offers a number of fellowships in forestry for the year 1930-31. The purpose of the fellowships is to encourage men who have shown unusual intellectual and personal qualities to obtain training that will best equip them for responsible work, either in the general practice of forestry, in the forest industries, in the teaching of forestry, in forest research, or in the development of public forest policy. It is hoped that the winning of a fellowship under this foundation will be recognized as a distinctive honor, and that the fellowships will stimulate forest students and professional workers of outstanding qualifications and will encourage men of marked ability and aptitude for leadership to enter the profession of forestry.

Six to eight fellowships are available. Appointments will be made by the Board, on recommendation of a Committee on Appointments. The awards will be made to gifted men who demonstrate natural powers of intellectual and personal leadership and who intend to make forestry their life work. The Board will seek all possible information concerning candidates from former teachers, associates, employers, and others.

The fellowships will ordinarily be restricted to men of American or Canadian citizenship. The fellowships will be granted only to those who have finished an undergraduate college course or its equivalent. The Board may appoint men who are still doing academic work or men who are already engaged in professional work who would be benefited by a year or more of study at a school of forestry. The Board reserves the right to reject any and all applications.

The amount of the fellowship grants will be determined by the circumstances of the individual cases. Foremost consideration will be given to the quality of applicants. Promising men who happen to have means will not for this reason be excluded from the honor and opportunities of a fellowship award.

Appointments may be made for twelve months, or for a longer or shorter period, in accordance with the scope of the proposed work, and may be renewed in the discretion of the Board. Appointments when accepted will not be vacated within the stated period without the consent of the Board. Fellows will be required to submit to the Board from time to time reports on the progress of their work. The Board may revoke a fellowship in case of misbehavior or neglect of work.

Applications for fellowships must be made in writing, on the prescribed form, on or before April 15, 1930, to the Secretary of the Charles Lathrop Pack Forest Education Board, 1214 Sixteenth Street, N. W., Washington, D. C. Application forms will be mailed by the Secretary on request or may be obtained from the nearest Director of the Board.

## AERONAUTICS SCHOOL OFFERS SCHOLARSHIPS

Students Completing One Year's Undergraduate Work by July 15 Are Eligible

The Boeing School of Aeronautics, organized for the purpose of providing adequate facilities for flying and ground school instruction for private plane owners and for students desiring training for commercial flying, is offering to undergraduate students in American universities a group of scholarship awards. These awards include a ground school and flying course covering a period of nine months, a master mechanic course, a ground school course for pilots, and a two or four-month pilot ground school and flying course. The awards cover the full tuition.

To be eligible a candidate must have completed at least one year's study in an American university which offers a Bachelor's degree in arts or sciences, he must present a letter from his Dean stating that he has maintained a scholastic standing sufficiently high to classify him in the upper one-third of his class during his enrollment, and he must submit an essay not exceeding 2,000 words on a given subject and a questionnaire to be filled out by him and attached to the essay.

The essays will be finally judged by a national committee of award, composed of prominent educators and leaders in the aeronautical industry, whose names will be announced later. The standing of the members of the national committee of award will be a complete guarantee of the fairness of their decision.

The candidate who is selected for the first award must be able to pass the Department of Commerce transport pilot physical examination, which may be given by an approved local physician after the awards are announced. If this candidate fails to pass this examination, or prefers the mechanics course, such course will be offered him. Second, third and fourth awards will be offered to the second, third and fourth highest ranking candidates in the judgment of the committee of award. Three alternate candidates will be selected.

Further information can be obtained by writing to the manager of the Boeing School of Aeronautics, Oakland Airport, Oakland, Cal.

## Fellowships Offered In The Biological Sciences

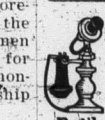

Awards Intended Primarily for More Recent Graduates With Ph. D. Degree or Equal

Fellowships in the biological sciences, Zoology, Botany, Anthropology and Psychology, Agriculture and Forestry, supported by the Rockefeller Foundation, are being offered by the National Research Council of this city.

The fellowships are for study and research in America or abroad, and are open to citizens of both sexes of the United States and Canada who possess a Ph. D. degree or its equivalent. They are intended primarily for the more recent graduates and not for those already professionally established. The purpose of the National Research Fellowships is the promotion of fundamental research in the various subjects through the development of an increasing number of thoroughly trained investigators.

The fellowships are not granted to any institution, but the choice of place to work is left to the fellow, subject to the approval of the Fellowship Board. The appointments are for full time and no other remunerative or routine work is permitted.

Further information concerning these fellowships may be obtained by addressing the Chairman, Board of National Research Fellowships in the Biological Sciences, National Research Council, Washington, D. C.

The trick is to find your pipe and tobacco

YOU will discover the full pleasure of pipe-smoking when you hit on the tobacco that really suits you in the pipe that really fits you. Then you can light up and lean back and cross your feet on the mantel or wherever, and purr and smoke—how you can smoke! The trick is to find your pipe and your tobacco. Nobody can find them for you, and until you find them you must go on groping in outer darkness—but have you tried Edgeworth?

Edgeworth may be just the tobacco you're looking for. It has a certain distinctive flavor that men like; it is slow-burning, cool—it will not bite your tongue; and it is rich with the savor, fragrant with the aroma, of fine old burley blended exactly right.

Check us up—try Edgeworth in a good pipe. We'll send you some helpful hints on pipes, and we'll even send you some Edgeworth, a generous free packet of it to try, for nothing but the coupon. That's meeting you more than halfway, isn't it? We know our Edgeworth!

Edgeworth is a careful blend of good tobaccos—selected especially for pipe-smoking. Its quality and flavor never change. Buy Edgeworth anywhere in two forms—"Ready Rubbed" and "Plug Slice"—16 packet package to pound humid tin—Larus & Bro. Co., Richmond, Va.
